New Dog and Cat Owners Needed for Research Study on Ticks

Why is this research being done?

People who own pets are more likely to find a tick on themselves than people who don't own pets.

We want to learn how to keep you and your pet safe from ticks!

How can I participate?

1. Go to our website (www.thetickapp.org/midwest/pets)
2. Complete the consent form (>18 years old)
3. Fill out two 5-minute online surveys this summer.
